

Press Release

“Kindergarten DODO KIDS” in Istanbul

Corkcomfort in the commitment to new generations

Corkcomfort combines all the advantages of a natural and sustainable material like cork with the ability to create unique atmospheres, lending them a tranquil and welcoming character, whatever the choice of look from the various options available. **Cork**comfort is also functional, hygienic, easily maintained, non-slip and highly resistant to scratches.

For the architect in charge of the construction of “Kindergarten DODO KIDS” in Kanlica, Istanbul, these were essential factors, as were his concerns for the environmental well-being and safety of the children.

Designed with the aim of creating spaces able to convey environmental values, reflecting the sustainability and eco-efficiency of the materials used, “Kindergarten DODO KIDS” also undertakes to inspire people to care for the planet from the earliest years. **Cork**comfort is a perfect ally in this quest.
